

04-December-2019, London, United Kingdom

Our managing partner, Kieran Moynihan, was honoured to represent Board Excellence as a guest speaker/facilitator at the launch in London today of the AIM Good Governance Review 2019/2020 developed by the The Quoted Companies Alliance (QCA) and UHY Hacker Young. This is a very encouraging report highlighting key progress since the update to AIM Rule 26 in 2018 in the critical board areas of

- The Strategic Report
- Stakeholder Engagement
- Board dynamics
- Board composition and expertise
- Succession planning

These are core components of the QCA code which most AIM companies have adopted. We had a wonderful engaging group of AIM companies and very thoughtful discussions on the critical importance of the key areas highlighted in the review as well as the growing importance of ESG for investors.

Kieran highlighted our experience of supporting AIM and FTSE listed companies with external board evaluations and helping the board team to drive sustainable improvement in the board effectiveness, governance and performance enabling the board to excel on behalf of the shareholders and stakeholders.

Tim Ward (QCA), Kieran Moynihan (Board Excellence),
Martin Jones (UHY Hacker Young), Samantha Green (QCA),
